About the Crane Trust's WILD ROSE RANCH

6611 W Whooping Crane Drive
Wood River, NE 68883

The Wild Rose Ranch is nestled inside the Crane Trust's 6,000 acres of historic prairie in South Central Nebraska. Camp guests will ride on Mormon Island where Brigham Young slept while taking his followers to Utah. Nearly all of this 2,000 acre island has never been tilled and remains the largest piece of original tall and mixed grass prairie left on the Platte River. Guests will ride where actual wagon ruts were made by covered wagons as they followed the Platte River on the Oregon Trail looking for gold or just a new life in the west. They'll stand where the young Martin Brothers were chased by Native Americans and eventually pinned together by an arrow while on horse-back.
